Sir:

Textron Inc., a corporation organized and existing under the laws of the state of Delaware is the owner of the entire right, title and interest in and to the above-captioned United States Patent Application Serial No. 10/696,958, by virtue of Assignment from the inventors. This assignment was recorded with the United States Patent and Trademark Office on October 9, 2002, at Reel/Frame 013363/0100. A copy of this Assignment is attached hereto.

Textron Inc. is also the owner of the entire right, title and interest in and to United States Patent Application Serial No. 10/222,269, which issued as United States Patent No. 6,692,206, by virtue of Assignment from the inventors. This assignment is the same

assignment as the assignment identified above and, thus, was recorded on October 9, 2002, at Reel/Frame 013363/0100. As stated hereinabove, a copy of this Assignment is attached hereto.

The undersigned has reviewed all of the documents in the chain of title of the above-captioned application and to the best of undersigned's knowledge and belief, title is in the common assignee identified above.

Textron Inc. hereby disclaims the terminal portion of the term of any patent to issue on the above-captioned application subsequent to the expiration date of the patent granting from United States Patent Application Serial No. 10/222,269, namely United States Patent No. 6,692,206. Textron Inc. agrees that any patent granted on the present application shall be enforceable only for and during such period that it is commonly owned with the patent granting from United States Patent Application Serial No. 10/222,269, namely United States Patent No. 6,692,206, this agreement to run with any patent granted on the above-captioned application and to be binding upon the grantee, its successors or assigns.

Textron Inc. does not disclaim any terminal part of any patent granted on the above-captioned application prior to the expiration date of the full statutory term of the patent granting from United States Patent Application Serial No. 10/222,269, namely United States Patent No. 6,692,206, in the event that such patent later expires for failure to pay a maintenance fee, is held unenforceable, is found invalid, is statutorily disclaimed in whole or terminally disclaimed under 37 CFR §1.321(a), has all claims canceled by a reexamination certificate, or is otherwise terminated prior to expiration of its statutory term.

Attached is a check for \$110.00 in payment of the fee specified in 37 C.F.R. 1.20(d) for this Disclaimer. Please charge Deposit Account No. 20-1495 for any deficiency or to credit any overpayment.
